

Value Partnerships is a **collection of statewide programs** among Blue Cross network physicians and hospitals across Michigan that improve the cost and quality of care for all patient populations.

Payer-provider partnerships

Shared best practices

Improved patient outcomes

Reduced costs

Empowerment within the Value Partnerships structure creates motivation for providers to perform to the best of their ability for themselves, their practice and their patients

Assembles competitive providers and hospitals and offers neutral ground for collaboration

Provides resources for infrastructure development and process transformation

Shares data at various drill-down levels

Rewards quality and cost results

Physician Group Incentive Program

40 Physician organizations **5,700+** Practice units **~20,000** Practitioners

Participate to collect data, share best practices and collaborate on initiatives that improve the health care delivery system in Michigan

\$270M

Value-based reimbursement to provider organizations and their physicians

PGIP providers represent 89% of total commercial, professional spend

Nearly 85% of Blue Cross primary care physicians are PGIP providers

~45 Total initiatives that improved quality, utilization and cost

PGIP's most recent initiative involved partnering with the state and other entities to make medication assisted treatment available statewide to address opioid use disorder

Medication-assisted treatment for substance use disorder

55

New emergency department physicians initiating MAT as a result of targeted efforts with Michigan OPEN and MEDIC Collaborative Quality Initiatives

78%

Increase in number of MAT providers across the state since September 2019

25

More counties with a MAT provider

331

Providers earned value-based reimbursement for providing MAT

Patient-Centered Medical Home

A PCMH is a care team, led by a primary care physician, that focuses on each patient's health needs and coordinates patient care across all settings.

Ensures right care, right setting

Compensates physicians for additional time and effort

~1,700

Practices

4,600+

93% of PPO members

The PCMH designation

Largest designation program in nation

Profiled in: *Health Services Research, JAMA Internal Medicine and Medical Care Research and Review*

Providers with the PCMH designation can be financially rewarded by Centers for Medicare & Medicaid Services and other payers

Compared to non-PCMH designated providers, PCMH providers:

Have **22.5% fewer** emergency room visits for **adults** due to focus on prevention

Have **28.5% fewer** emergency room visits for **children** due to focus on prevention

Perform better on:

16 of **17** HEDIS® measures ❖ **11** of **12** MAPPO Stars measures

HEDIS®, which stands for Healthcare Effectiveness Data and Information Set, is a registered trademark of the National Committee for Quality Assurance, or NCQA.

Collaborative Quality Initiatives

Addressing many of the most common and costly areas of surgical and medical care

23 statewide programs

100+ participating hospitals

45,000

Blood transfusions avoided after knee or hip replacement surgery

1,400

Post-surgical readmissions prevented after bariatric surgery

28%

Decrease in major complications after trauma surgery

3,300

Blood clots avoided

8,000

Fewer head CT scans in emergency room patients

63%

Reduction in post-operative opioid prescribing

20%

Fewer patients receiving inappropriate antibiotics

Profiled in the *New England Journal of Medicine Catalyst* and the *New York Times*

Health Information Exchange

Value Partnerships works with the Michigan Health Information Shared Services Network to incentivize physician participation in the **Health Information Exchange**.

➤ Sooner physician follow-up with patients

Every hospital and over 60% of skilled nursing facilities in the state transmit **24 million messages** per week via HIE, including:

➤ Better coordinated care transitions

1.8M
lab results

100K
immunizations

400K
continuity of care

➤ Reduced therapeutic duplication
